

# Calling for Expressions of Interest for Pen CS Data Extraction Tool

The Adelaide PHN is providing General Practices in the metropolitan area the opportunity to obtain a licence for Pen CS software for the purposes of supporting improvements in the delivery of primary health care in South Australia.

Pen CS software licensing available to General Practice from Adelaide PHN includes:

- a) **CAT4** – Clinical Audit Tool that extracts data for practice analysis and targets key areas such as chronic disease management, data quality and accreditation, cancer screening, immunisation, eHealth and much, much more.
- b) **Topbar** – User friendly app to promote opportunistic care, helps improve data quality, chronic disease management and eHealth. It also provides recommended actions to meet MBS claim guidelines.
- c) **Help Desk Support** – Assistance to ensure effective use of Pen CS software. Additional product training, step-by step guides on hand, webinars and help desk available via phone, email or fax to provide support 24 hours a day.
- d) **Workshops** – Adelaide PHN will also be running several workshops throughout the year to further assist General Practices understanding how best to utilise the Pen CS software.

There are two licence options:

## **Option 1: Fully subsidised – Requirement to share de-identified data with Adelaide PHN**

- Licence provided at no cost to the practice.
- Agreement to share de-identified population health data to Adelaide PHN and to work with the Adelaide PHN to optimise data that has been accumulated where appropriate.
- Following 12 months of continuous, complete de-identified data uploads, Adelaide PHN will provide a Patient Wellbeing Report. The Patient Wellbeing Report enables General Practice to understand the demographics and health needs of their patient population to improve business viability and patient health outcomes.

## **Option 2: Partly subsidised – License at reduced price with no requirement to share data with Adelaide PHN**

- Practices who wish to purchase the Pen CS software without sharing data, will be offered this at a reduced cost of **\$750.00 (excl. GST)**.

To access a licence for Pen CS software from Adelaide PHN please provide Adelaide PHN the following details to our Digital Health Officers at [digitalhealthinfo@adelaidephn.com.au](mailto:digitalhealthinfo@adelaidephn.com.au)
