

Chronic Kidney Disease Issues for General Practitioners

FOR GPs, NURSES AND ALLIED HEALTH PROFESSIONALS

DATE & TIME

6.30-9.30pm
Tuesday 10th April 2018

VENUE

Gepps Cross Hotel
560 Main N Road
Blair Athol SA 5084

Light dinner provided
No cost to attend

This education session will provide attendees with information on how to identify patients in the general practice setting who are at higher risk of developing Chronic Kidney Disease (CKD). The presenter will advise best practice management for diabetic kidney issues and discuss the high prevalence and poor outcomes of CKD in Aboriginal and Torres Strait Islander people.

LEARNING OUTCOMES

- Explore the role of the GP in preventing and detecting CKD in the primary care setting.
- Define the goals for best practice management of CKD, particularly diabetic kidney disease.
- Discuss the high prevalence and poor outcomes of CKD in Aboriginal and Torres Strait Islander people.
- Define best management for resistant hypertension including lifestyle and pharmacological management.
- Implement a practice-based system, for patient safety to identify patients at higher risk of CKD for a kidney health check.

AGENDA

- 6.30pm - 7.00pm** Registration & dinner
- 7.00pm - 8.00pm** Presentation by Dr Anjelo Joberto
- 8.00pm - 8.10pm** Tea/coffee break
- 8.10pm - 9.10pm** Presentation resumes
- 9.10pm - 9.30pm** Q&A and evaluations

PRESENTED BY

Dr Jobert Anjelo
Nephrologist
