

Scheme Literacy & Key Points for working in the Scheme

Learning Outcomes

- Discuss the current performance trends of the work injury scheme in relation to current legislation and its effect on patient outcomes.
- Summarise the claim journey, including how a claim is made, working with the mobile claims manager and certifying capacity for recovery and return to work.
- Describe the health benefits of work and its impact on patient outcomes.
- Discuss systems for general practitioners and practice managers to work effectively within the scheme to ensure patient safety.

Thursday, 26
July 2018
