No cost to attend

Through conducting quarterly meetings, the NHN supports members of the Practice Managers Network by acting on their recommendations, providing strategic advice on all matters relating to running a general practice, and assisting them to find ways to manage patient health through better referrals process and improved use of the MBS scheme.

The NHN advocates for the Practice Managers Network by facilitating effective and efficient feedback and discussions around the latest and most relevant primary healthcare topics, and will assist general practices to expand their referral pathways and capacity to better care for our community.
