

The SA PHN Immunisation Hub invites you to join our
Travel Medicine and Zostavax Program Webinar

This webinar is tailored to GPs and Nurses, however all health professionals who deliver, or have an interest in travel medicine and the Zostavax program are welcome to join.

Date: Wednesday, 29 November 2017

Time: 6.00pm-8.00pm

Presented by:
Dr Libby Muller, TMVC
Angela Newbound, SA PHN Immunisation Hub Coordinator

Webinar: Log on details will be sent prior to the date

The webinar will cover:

An overview of travel medicine and vaccine recommendations.

Travel vaccination recommendations are dependent on many factors and may be complex. Travelers may need travel medicine expert advice when planning their itinerary.

An overview of the Zostavax program which commenced on 1st November 2016.

How has the program evolved over the past 11 to 12 months? Recalls, AIR data and medical software.

**The session will accrue 2 CPD hours*

Registration:

Visit the **sapmea** website to register online at www.sapmea.asn.au/events
or register over the telephone on **08 8274 6060**

The SA PHN Immunisation Hub is grateful for the ongoing support and sponsorship from Seqirus for this education

Presenters:

Dr Libby Muller, TMVC
Travel Medicine Update

Libby worked in General Practice for 20 years prior to commencing work at the Travel Doctor in Adelaide. Her General Practice experience included 3 years at the Immunisation Clinic at the Women's and Children's Hospital and 4 years at Adelaide University Health Clinic working in student health. She studied Travel Medicine at James Cook University in 2014 and was Medical Director at the Travel Doctor Adelaide in 2015 and 2016.

Angela Newbound, SA PHN Immunisation Hub Coordinator
Zostavax Program Update

Angela is a Registered Nurse who has specialised in the field of immunisation for the past 17 years. She delivers immunisation support and education to a wide range of health providers across South Australia and contributes to the development of immunisation resources to assist providers with challenging aspects of the immunisation program.
