by Monday 5<sup>th</sup>  
November 2018

Presenters Professor Singh, Dr Harding, Dr Chinnaratha, Dr Tee, Dr George and Dr Philpott will discuss various gastroenterology conditions such as fatty liver disease, colorectal cancer, inflammatory bowel disease, irritable bowel disease and cancer and viral hepatitis. This session will also provide information on various gastroenterology services and referral pathways available in the NALHN region.

## Learning outcomes

- Discuss fatty liver disease and identify various testing, treatment and management options available.
- Describe HCV screening and improve patient safety by choosing the most appropriate HCV treatment according to the patients' characteristics and co-medications.
- Identify various tests available to diagnose IBD and cancer. Demonstrate a practical approach to diagnose and treat unexplained abdominal pain, diarrhoea and constipation.
- Discuss the changes to colorectal cancer screening and the advances in endoscopy in South Australia.
- Learn more about gastroenterology services and NALHN, discuss challenges and future plans.
