

# Population Health 2020/21 Report Card

Adelaide PHN aims to better understand the health needs of our region and determine priorities. This report card shows how key PHN Performance Indicators relating to population health are tracking in the Adelaide PHN region in 2020/21.

## Children and Youth

Our Paediatric Partnership Project provided timely access to assessments for children on existing waitlists by supporting...

**124 autism spectrum disorder assessments**  
**22 additional therapy assessments**  
**11 psycho-educational assessments**

✓ **Outcome** increased access to services for vulnerable communities

## Champion Nurse Immunisation Program

Our Champion Nurse Immunisation Program provided 1,513 episodes of support to community and immunisation providers

✓ **Outcome** increased rates of cancer screening and immunisation

## Culturally and Linguistically Diverse

Our Adelaide Refugee and New Arrivals Program provided...

**370 registered nurse supports** to 160 clients

**474 health literacy sessions** to 145 clients

✓ **Outcome** increased access to services for vulnerable communities

## Living Well with Persistent Pain

Our Living Well with Persistent Pain Program supported 64 individuals to attend 11 education sessions

✓ **Outcome** less days lost as a result of pain in our community

*This resource draws on data from a range of reliable health and Adelaide PHN internal data sources (where the most current national data set is available).*
