Why do we need MenB prevention in Australia?

Help your patients understand meningococcal disease and vaccination options available to help protect their families.

Not a real patient. Image is a re-creation of a real case of meningococcal disease.

GSK's portfolio of vaccines have been helping to protect people from a range of serious diseases for well over 100 years. We are pleased to invite you to an educational meeting which aims to enhance your knowledge of **Meningococcal B disease**.

Your personal information will be collected and provided to the venue to enable the venue to meet their contact tracing obligations.
