

Sonder has a long history of building and sustaining workforce development. Sonder has developed a variety of networks which bring together health professionals from general practices or medical specialists. We currently provide support to Practice Managers, Nurses, GPs and Practice Owners.

Members of Sonder's Practice Owners Network have the opportunity to attend quarterly network meetings. The network provides members with a forum to; build the capacity of general practices, learn about the changing face of the primary health sector, share opportunities to improve the patient experience, be inspired by a range of exciting speakers and be a voice for change.

## Topic : Secure Messaging

Digital information can transform the quality and sustainability of health and care. Used effectively, it can help save lives, improve health and wellbeing and support a sustainable health system that delivers safe, high quality and effective health services for all Australians. Attend this session and hear from the Australian Digital Health Agency about digital solutions like My Health Record and secure messaging, their benefits and tips to embed their usage in your practice.
