The countdown is on… 2019 is the last year of the triennium.

RACGP SA&NT is running a complimentary face-to-face session to assist GPs with meeting the QI&CPD requirements for the 2017-19 triennium.

This session will:

- Outline available options for the QI activity
- Revisit plan—assist you to start your PLAN if you wish this to be your QI activity
- Assist you to finish your PLAN activity if you have already started.

The RACGP Quality Improvement and Continuing Professional Development (QI&CPD) Program supports GPs to maintain and improve their professional knowledge and skills in order to provide the best possible care for patients and their communities.

The focus of the 2017–19 triennium is to encourage and facilitate reflective learning to help GPs identify opportunities that enhance their daily practice with changes that will improve patient safety and care.
