

Priority Care Centres

Do you have a patient with an urgent but non-life threatening condition?

Hindmarsh Priority Care Centre (PCC) offers a safe and effective local option for urgent care.

About us

SA Health, in partnership with Local Health Networks, Adelaide Primary Health Network and general practice have established four PCCs across metropolitan Adelaide.

PCCs provide bulk-billed community-based healthcare and treatment for patients with urgent, non-life-threatening conditions, who would otherwise seek treatment at a public hospital ED.

PCCs are led by general practitioners with support from emergency and acute care trained SA Health nurses.

Our Service and Treatment

IV antibiotics for infections (e.g., cellulitis, pyelonephritis, UTI etc.)

Rehydration

X-rays for simple sprains or fractures

Back-slab, splinting or cam boot application.

Minor wound care for cuts, abrasions, lacerations, including suturing

Incision and drainage of abscesses

Slit lamp for eye conditions

Removal of ear and nose foreign body

PCCs provide care for a range of urgent but non-life threatening conditions when safe and appropriate.

Why use a Priority Care Centre?

- > 80% of patients discharged home within 2 hours.
- > Access to radiology, pathology and pharmacy onsite, during business hours
- > Your patient will be referred on to other services, including ED, if this is required.
- > 93% of patients are satisfied with their treatment.
- > The PCC GP will provide an event summary to a patient's regular GP to ensure continuity of care.

We are located at 334 Port Road Hindmarsh. Car park rear entry via Orsmond Street.

Hours:

Monday to Friday 9:00am to 7:00pm
Saturday and Sunday 9:00am to 5:00pm
Closed public holidays

GP or Clinic Nurse can make referrals:

 Call Us: Hindmarsh PCC 0466 869 090

 Online referral form can be accessed on the [PCC website](#)
